

USI3DT

U.S Institute of 3D Technology

(California, USA)

Seminar

(90 Minutes)

- Introduction on 3D Printing Technology.
- What is 3D Printing and how it works.
- Various Materials for 3D Printing.
- Various types of 3D Printers.
- Comparison between Traditional and modern Methods of Manufacturing.
- Industries Using 3D Printing.
- Advantages of 3D Printing.
- Success Stories.
- Creative Applications.
- Applications of 3D Printing for Students.
- Highlights of Courses.
- Audience Interaction
- Feedback
